

## Mobile phones and personal devices at LGPS Policy

### Purpose

This policy provides direction to students, staff and families about managing mobile phones and other digital devices that students choose to bring to school. Digital devices include, but are not limited to, smartwatches, tablets or laptops that are not part of a separate Bring Your Own Device arrangement. This policy applies while students are at school, or attending an authorised school activity such as an excursion, during school hours.

### Mobile phone use for primary school students

The department's position is that primary aged students cannot use their mobile phones and personal devices at school during school hours. The department and the school recognise that there are legitimate reasons for students to bring a mobile phone or personal device to school. This may include:

- to ensure their safety while travelling
- so that parents can contact them outside of school hours.
- During the school day students are not permitted to access or use their mobile phones or other personal devices. Students must switch off or mute their devices before storing them at the beginning of the school day. They will not be able to access their device until the end of the school day.

### Storage of personal devices

Students are required to keep their mobile phone in their school bag or hand it in to the front office where it will be placed into the safe until the end of the day. To minimise disruption we ask students to switch off or mute their mobile phones and personal devices before storing them.

### If the student does not comply

- The school will follow the site 'Wellbeing Policy'; students will be given a warning/reminder if the phone is then not secured the student will be required to take the phone to the front office to be placed in the safe, failing to do so the student's family will be contacted.
- If a student's phone is confiscated for non-compliance, the device will be returned to them (or their parent) at the end of the school day.
