## Sensory Garden

The Garage now has a sensory Garden. Created in the garden beds in the outside area. It includes plants that encourage children to use all of their five senses. Different plants have bright flowers or leaves to trigger a visual response, while other plants feel, taste, smell or feel unique. This type of garden allows children to connect to nature and supports them to become more aware of their surroundings which aligns with the principles of mindfulness.

The plants in the sensory garden include;

- Mint
- Mint chocolate
- Rosemary
- Sage
- Kangaroo Paw
- Thyme
- Big ears
- Lavender
- Adenanthos bush
- Boronia Carousel bush

On Thursday afternoon of week 2 the Foundation/Year 1 class went on a visit to the Special School. During this time they joined in with children at the school and played on the newly established playground and bike track. The visit was such a success it was decided it will be an ongoing weekly session for the rest of the term which all the children from both schools are very excited about.
